Jiuli

使命 Mission

为客户提供更高效、更安全、更低总体成本的工程模块化预制解决方案。

To provide customers with more efficient, safer and lower overall cost engineering modular prefabrication solutions.

承诺 Commitment

我们视客户的知识产权为最高机密。

We keep confidential all our customers' intellectual property.

责任 Responsibility

我们高度重视可持续发展，通过更先进的产品、更长的使用寿命、更科学的解决方案响应国家的双碳战略。

We attach great importance to sustainable development and respond to the nationa1" dual carbon" policy by providing more advanced products，longer service life and more scientific solutions.

久立管道系统预制解决方案

JIULI PREFABRICATION SOLUTIONS FOR PIPING SYSTEM

浙江久立特材科技股份有限公司

ZHEJIANG JIULI HI-TECH METALS CO., LTD.

久立管道系统预制解决方案 Jiuli Prefabrication Solutions For Piping System

久立（上海）工程技术服务中心为客户提供管道3D设计、结构应力分析及工程项目施工管理和技术咨询等方面的服务。

目前久立可以同时生产管、棒、板、线材、管件、法兰及钢结构，并根据项目需求和产品结构，合理调控产品的生产进度并统一产品规格，实现最大限度的工厂化预制，降低生产成本，减少项目现场施工量，缩短建设周期。

Jiuli (Shanghai) Engineering Technical Service Center can provide customers the services of 3D design, structural stress analysis, construction management and technical consultancy, etc.

Jiuli can produce pipes, rods, plates, wires, pipe fittings, flanges and other piping materials. In the light of project requirements and products structure, we are able to adjust and control the production progress of the products and unify products size for the same project, so as to achieve the maximum industrialized prefabrication, reduce production costs and job site construction, then shorten the construction cycle.

主营产品 The Main Products

种类/ Category	外径/OD	壁厚/ WT
焊接钢管 Welded Pipes	6- 3000m	0.5- -80mm
无缝钢管 SMLS Pipes	3- 914mm	0.3-65mm
无缝对焊管件 SMLS Butt - Welding Fittings	DN15-DN900	SCH 5S-XXS（Max65mm）
焊接对焊管件 Welded Butt - Welding Fittings	DN15-DN3000	SCH 5S-XXS（Max80mm）
锻制管件 Forged Fittings	DN8-DN150	Class2000-9000
法兰 Flanges	DN15-DN2000	Class150-2500
双金属复合管件 Cladded Fittings	DN150-DN900	SCH 40S-SCH 160
堆焊复合法兰 Weld Overlay Flanges	DN100-DN1200	Class 150-2500
管道系统预制 Piping System Prefabricated Parts	DN15-DN2000	200000 Dyne/year
棒材 Bars	最大直径≤600mm Maximum Diameter≤600mm	
焊丝 Welding Filler Metals	1.0-4.0mm	
板材 Plates	可定制 Customizable	
钢结构 Steel Structure	十万吨/年 100,000 t/y	

- 久立专业技术人员力量充足，根据客户的设计图纸，将提供合理化建议，采用非标产品进行优化，减少焊缝及焊口，降低冲击和阻力，提升管路安全系数。
- 久立专业化预制工厂，6S管理模式下的工厂安全、整洁、有序。
- 工厂配有管端坡口、弯管、锯切、自动焊接、热处理、酸洗钝化等一系列先进设备，保证产品的精度及质量。

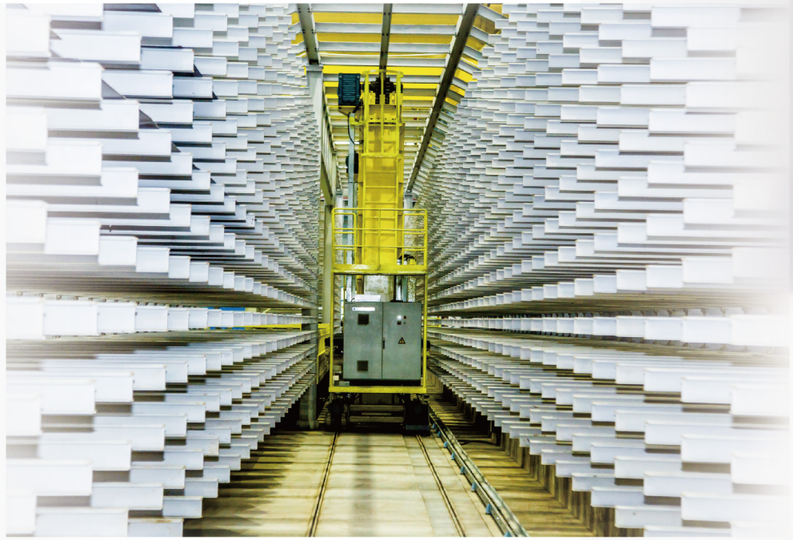

- Jiuli has strong technical force and can provide suggestions to the drawings provided. For example, by use of non-standard products instead of standard products, the number of welds can be decreased, the impact property and resistance can be reduced, for the sake of improving the pipeline safety factor.
- The prefabrication mill under Jiuli 6S management mode is safe, tidy and orderly.
- The factory is equipped with a series of advanced equipments such as bevelling machines, bending machines, sawing machines, automatic welding machines, heat treatment furnace, pickling and passivation tank, etc., to ensure the precision and quality of products.

预制焊机
Prefabricated Welding Machine

- 工厂拥有经验丰富的焊接工程技术人员，采用PAW、SAW、GTAW等多种焊接方法，选择最优焊接工艺进行管道焊接，极大地提高了焊接效率，同时保证了产品焊缝质量的稳定。
- 工厂配有专业的探伤设备及无损检测持证人员，射线探伤、渗透探伤、超声波探伤等无损检测手段一应俱全，保证焊接质量安全可靠。
- Jiuli has experienced welding engineers with PAW, SAW, GTAW and other welding methods all available. They will optimize the welding processes for each job, to improve the welding efficiency and ensure the quality of the product welds.
- The mill is equipped with professional non-destructive testing facilities and certified testing personnels. RT, PT, UT and other tests are all available to ensure the welding quality.

Jiuli

- 工厂配有大型台车炉、酸洗池、喷砂等设备，保证产品表面质量。
- 整体配套，合理排产，优化进度，缩短交货周期。
- Jiuli is equipped with large trolley chamber furnace, pickling tank, sand blasting room, etc, to ensure the surface quality of the products.
- To serve our clients with packages service, reasonable production scheduling, and shortened lead time.

久立双碳之旅 The Trip of “Dual Carbon”for Jiuli

久立的工厂是中国工业和信息化部公布的绿色工厂。

久立投建了200立方米低温液态天然气站及总装机容量12MW光伏分布式电站，电站采用10KV高压侧并网，接入车间专线用于生产。

我们通过回收再利用的方式，提高了热能和废水的重复利用率，降低了能源消耗。

不锈钢是公认的绿色循环经济产品，久立将生产过程中产生的废料按照不同成分进行严格分类，用于帮助不锈钢实现真正的循环利用。

久立所出品的先进材料可以很好帮助客户抵御高温、高压、腐蚀等工况，降低因为恶劣工况而造成管材泄漏的生产事故，从而提高工业生产的效率，为全社会减少了二氧化碳排放量。

Jiuli is a green factory announced by the Ministry of Industry and Information Technology of the People’ s Republic of China.

Jiuli has built a low temperature liquid natural gas station with 200 m^3 and a photovoltaic distributed power station with a capacity of 12MW. The power station adopted 10KV high-voltage side grid connection which has been put into use in workshop.

By recycling, Jiuli increases the repeating utilization factor of heat energy and wastewater, to reduce the energy consumption.

Stainless steel is a recognized green product. The scraps generated in the production process have been strictly classified as per different components to achieve the purpose of recycling.

The advanced materials produced by Jiuli could be used in different places like high temperature, high pressure and corrosion working conditions. Our mission is to reduce the accidents caused by pipeline leakages during the operation under bad working conditions, so as to improve the efficiency of industrial production, which contributes to the reduction of the overall carbon dioxide emissions.
